

#748 Spring Sampler Correction

The template on page 7 for block 7 is too big. Also you do not use this template for block 11 as stated in the pattern on page 9 block 11, under CUTTING AND PIECING LEAVES. Instead use the blue template for block 11 and the black template for block 7.

Also it has been brought to our attention that sometimes when you scan or print a template it does not necessarily come out the exact size it needs to be.

I would highly recommend you buy a Tri Recs tool.

Check your local quilt shop for this common tool or google Tri Recs.
